

LINE LIGHT C+R

Powerful inspection hand lamp with DUAL SYSTEM

LINE LIGHT C+R is an extremely powerful inspection light and flashlight in one. When you need to, simply twist the cord to remove it and enjoy the powerful illumination for up to 8 hours.

Compared to the previous model, the light output of LINE LIGHT C+R has been **increased from 600 lumen to 900 lumen**.

The very slim design with a diameter of only 25mm makes it possible to illuminate even hard to reach compact areas.

By means of a built-in prism, LINE LIGHT C+R concentrates the light in a 75° beam angle providing an extremely bright and powerful illumination of the specific working area. Avoid blinding during work and adjust the beam angle to provide optimal work light at the specific work area.

LINE LIGHT C+R inspection hand lamp is with DUAL SYSTEM - new intelligent and innovative lighting functionality. DUAL SYSTEM means both rechargeable and with 5 m rubber cable offering unlimited application possibilities and complete freedom.

LINE LIGHT C+R is made in Denmark.

- Improved light output (900 lumen) increased by 50%
- Powerful inspection light and flashlight in one
- Rechargeable with up to 8h operation time
- Sturdy and waterproof IP65
